Paul and others helped with GKM too. I think we should remind programs to coordinate with ORC. I'll ask Elyana to remind SLT to do so.

I just checked, and she didn't know they had pulled together a transition paper. She also doesn't know whether UIC is working on any other papers.

I checked in with Judy Bloom yesterday on this in our weekly meeting, and it turns out the clean water program was working on three transition papers, only one of which, a general paper on nutrient water quality standards, Erin had looked at. Erin is going to help them pull together a MT nutrients transition paper. Obviously, on the air side, Sarah Rae and Matt C. had worked on the Northern Cheyenne TAS paper, but I'm unaware of other potential papers. I wonder if we should follow up with the team for all the media, or start reaching out to programs.

Can you check with Lucita to see if she reviewed?

Here is the Dewey Burdock Issue Paper the Water Division wrote. Hopefully, ORC staff saw it.
